**DUST
PROTECTION
SYSTEM**

Mineral dust may cause cancer!

Diamond saws EDS 125 and EDS 125 T

EIBENSTOCK

Diamond saws EDS 125 and EDS 125 T

35 mm connection hose

direct connection to industrial vacuum cleaner DSS 25/50/35

Easy change of carbon brushes

Roller guided plate

smooth-running, protects the surface

Mitre adjustment

without any tool and stepless up to 45°

Integrated water supply with flow regulator (EDS 125)

easy adjustment of the water-volume and dust free working while wet cutting

EDS 125 T

EDS 125

Cutting depth adjustment

without any tool and stepless up to 36 mm

Immersion function

you can begin the cut with the machine in the working area

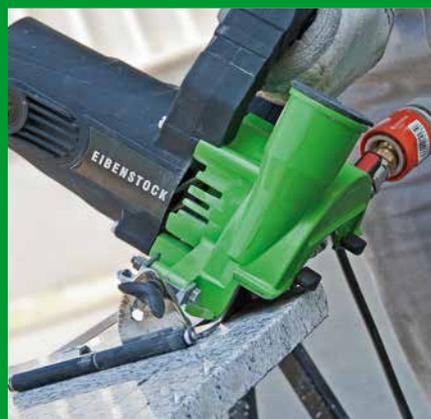

The handy Eibenstock diamond saws are specially designed for **dry cutting (EDS 125 T)** and for **wet and dry cutting (EDS 125)** up to 36 mm cutting depth in mineral materials. Typical areas of application include cutting tiles and slabs (for example natural stone, porcelain tiles) and the renovation of tiles and grout. Using special concave diamond blades, curved cuts can be made. The machines are the ideal tool for the tiles and pavers, as well as for garden and landscape designers.

By connecting Eibenstock industrial vacuum cleaners on the 35 mm connection hose, the dust is reduced to a minimum and it will thus ensure better prevention against harmful mineral dust to the user.

Cutting of tiles and cutouts in tiles

Cutting large-format slabs, mitre cuts up to 45°

Diagonal cut with cutting table

Cutting tables ETT 700 and ETT 1200

The flexible alternative to unwieldy cutting machines Cutting tables EDS 125 and EDS 125 T – MARKET INNOVATION

Fast, fixing of the saw without any tool
in the precisely bearing carriage

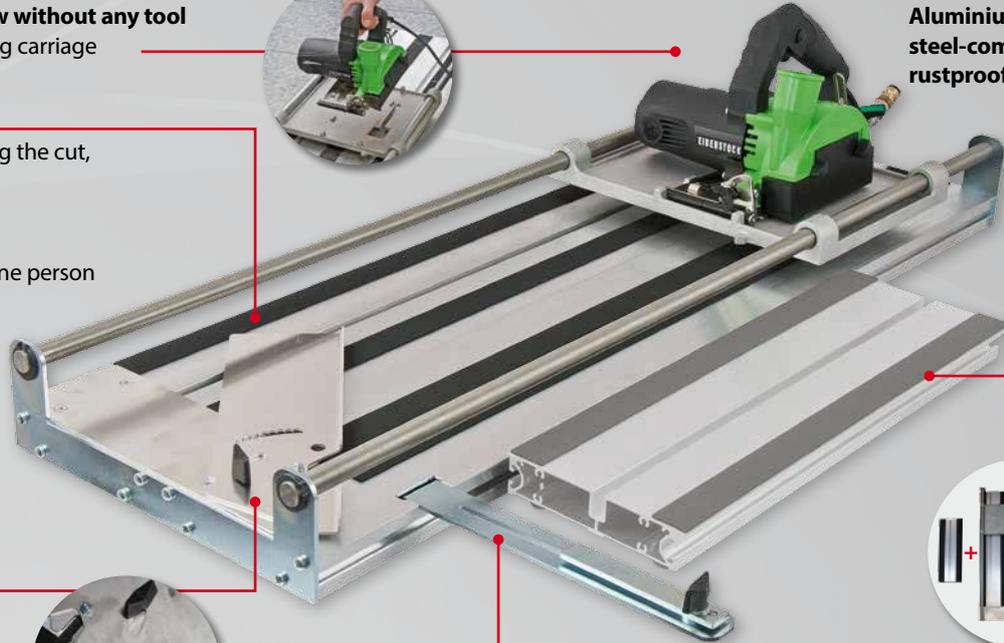

Aluminium/stainless steel-combination – rustproof

Non-slip covering

Fixing of the tile during the cut, reduces vibrations

Low weight, handy

easy to transport by one person

Adjustable angular stop

mitre cuts up to 45°

Adjustable side stop

for repetitive cutting

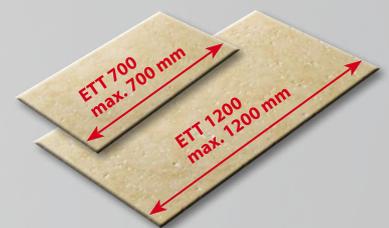

Plate enlargement – solid, unbreakable support for particularly large plates, on both sides in all positions mountable and arbitrarily expandable (Accessories)

Our innovative cutting tables for a **maximum cutting length of 700 or 1200 mm** respectively are the perfect complement to the diamond saws. They are practical alternative for large, heavy cutting machines, since they can be used **directly on the workplace** (especially when renovating existing buildings). The user **saves transfer time and by that way costs**. In particular, **large format tiles**, porcelain tiles and natural stone are cut precisely up to a **thickness of 20 mm**.

Advantages dry cutting: time and cost savings

- use directly at the site
- drying time of the tile is eliminated – can be laid directly
- dirty water doesn't have to be recycled

Joint milling – dry cutting with depth limiting and immersion function

Curved cuts with diamond concave disc

milling of joints with diamond milling disc – depth limiting and immersion function

EIBENSTOCK

Quality power tools since 1919

SPECIFICATIONS	EDS 125 / EDS 125 T
Power input	1,250 W
Rated voltage	230 V ~
No-load speed	12,000 rpm
Max. disc Ø	125 mm
Spindle connection	22.2 mm
Max. cutting depth without guide rail	36 mm
Weight without disc	2.9 kg/2.8 kg
Order no.	0660V000 / 0660W000
Supplied EDS 125	in a case with diamond cutting disc Ø 125 mm and assembly tools
Supplied EDS 125 T	in a box with diamond cutting disc Ø 125 mm and assembly tools

	Cutting table	
	ETT 700	09801000
	ETT 1200	09802000
	Plate enlargement 167 x 485 mm	09803000

	Furthermore we recommend:	
	Industrial vacuum cleaner DSS 25 A - wet/dry 1400 W, 25 l tank volume	09915000
	Industrial vacuum cleaner DSS 50 A - wet/dry 1400 W, 50 l tank volume	09916000
	Industrial vacuum cleaner DSS 35 M iP - wet/dry 1600 W, 35 l tank volume	09919000

Accessories	Description	Order-no.
	Guide rail (with 2 screw clamps) 750 mm / 1,500 mm	37461000 / 37462000
	Assembly rail for guide rail 300 mm	37463000
	2 suction holder for guide rail	37464000
	Diamond cutting disc Ø 125 mm	3744B000
	Diamond milling disc Ø 125 mm, milling width 6 mm	3744C000
	Diamond concave disc Ø 115 mm	3744A000
	Water tank 5 l plastic, 2.5 m hose with Gardena-Connector	35811000
	Water tank 10 l metal, 3.5 m hose with Gardena-Connector	35812000

Machine on guide rail – for precise cuts, unlimited extensions
